Quoc Le
Research Scientist, Google Brain
Smarter Devices for Our Connected Environments
EmTech Digital 2015 Speaker

The graph shows two curves: a blue curve labeled "Traditional" and an orange curve labeled "Machine Learning". The y-axis is labeled "Accuracy" and the x-axis is labeled "Amount of Data". The "Machine Learning" curve starts lower than the "Traditional" curve but rises more steeply, eventually surpassing the "Traditional" curve as the amount of data increases.

How will smart machines redefine your industry?

Discover how artificial intelligence will impact every person, every industry, and society as a whole.
